### **3rd period, 24.2.2025 – 30.3.2025:**

- Studying subjects at Finnish language level A1.3–A2.1.
- Teaching on Mondays and Thursdays from 18.00 to 19.30.
- During Ramadan training continues, as it prepares participants for Finnish working life. However, there will be a 1 week break during the Id celebrations.
- The period lasts 5 weeks.

### **4th period, 7.4.2025 – 1.6.2025:**

- Studying subjects at Finnish language level A1.3–A2.1.
- Teaching on Mondays and Thursdays from 19.00 to 20.30.
- The period lasts 8 weeks.

Duration All students progress in education as one group from beginning to end. The total duration of the training is a total of 7 + 6 + 5 + 8 weeks, a total of 26 weeks, including breaks and periods.

Place The training is carried out in TEAMS meetings and on Keuda's Moodle (Pinja) online learning platform. The tools and methods will be specified by the start of the training. In addition to teacher evaluation, the AI-based SKILL KOMPASS tool is used for self-evaluation and monitoring of language skills.

Participants The offer is made according to a group of 25 people.

## Content

**The structure and content of the 26 week training period:**

**A. Online teaching** 90 minutes on two weekday evenings (Mondays and Thursdays) 7 + 6 + 5 + 8 weeks. During the winter time, teaching takes place at 18:00–19:30 and during the summer time at 19:00–20:30 (taking into account the time zones of Finland and Turkey). Teaching takes place via the network (TEAMS or similar).

**B. Guidance** and monitoring of the student's progress in the form of homework corrections and feedback. 15 minutes/student/week have been allocated for this.

**C. Oral proficiency test** and language proficiency assessment. In the oral skills test, one 15-minute group meeting is also held for each group of 5 people, in connection with which the test is held.

**D. Self-assessment using the SKILL KOMPASS tool.** This includes using the AI-based SKILL KOMPASS tool for self-assessment of oral and written language skills. The tool utilizes advanced AI technology based on extensive language models and authentic language samples to ensure accurate and consistent assessment.

***SKILL KOMPASS is a modern AI-based self-assessment tool** designed to support a student's learning of the Finnish language and monitoring progress. Its validation and reliability are based on the following factors:*

- *Piloting and collaboration: The tool has been developed in collaboration with Keuda, Elias Robot and 3DBear. The data collected during the piloting phase has been carefully analyzed, and the tool has been calibrated to give accurate and reliable assessments of the student's competence.*
- *Reliability of technology: SKILL KOMPASS utilizes advanced AI technology based on extensive language models and authentic language samples. This enables an accurate assessment of oral and written Finnish language skills in realistic learning situations.*
- *Language models: The tool is based on extensive language models trained on authentic samples of language use. This ensures that the student receives a reliable and versatile assessment of his own progress and language skills in different situations.*
- *SKILL KOMPASS supports students through self-assessment to monitor their own development*

The training includes 52 hours of online teaching and an additional 104 hours of self-study. In addition to these, the total number of training includes the number of hours accumulated from evaluation and monitoring.
